Narrative Report -- Men's Work
P. H. Stone
State Agent for Negro Work

August, 1928

Corn:

Reports indicate that corn demonstrations have suffered heavily during the recent floods. In Chatham County, thirteen farmers who entered the 5-Acre corn contest are pulling no fodder, but will allow corn to remain on stalk.

In Washington County, ten of the 5-Acre demonstrations are attracting considerable attention because of the contrast with the average for the County.

Cotton:

In Hancock County, Agent E. L. Cooper reports conducting sixteen demonstrations in weevil control and similar work was carried on in Clarke County where six demonstrations were held, reaching approximately 500 persons.

Dairying:

Three permanent pastures were started in Clarke County this month and Agent D. A. Starks also reports that assistance was given farmers in selecting for purchase two cows and a heifer.

Thirty-two farmers in Hancock County sold sour cream this month. Agent Cooper conducted a demonstration in the home treatment and prevention of milk fever.

In Baldwin County this month, there was a reduction in the number of sour cream sellers, because of the increase in local butter prices. Eight families in Washington County were helped in preparing better quarters for their milk cows.

Forage Crops:

The threatened corn shortage is adding a new importance to the hay crop and the agents are pushing this emergency program.

In Houston, Peach, Clarke, Bibb, Liberty, Randolph and Washington counties, demonstrations and field meetings have been held to emphasize the necessity of saving every possible ton of hay.

The Winter Legume Campaign:

The agents in Randolph, Liberty, Clarke and Monroe Counties report

Chatham County, B. S. Adams, Agent. "This Short Course proved to be successful in every way."

Peach-Houston Counties, O. S. O'Neal, Agent. "This was the first State Short Course ever held and it was the most inspiring, outstanding and best piece of club work ever put over in Georgia."

On Friday, the State Judging Contest was held. A team of club boys entered this contest. After the contest was over, one of my club boys, Emory Childs, made the highest mark, 90%, in the contest. The team led in hogs and made the second place in corn and dairy. Each of these boys who attended was inspired by what they received while there and came back home full of interest and zeal to do more in their respective communities."

Liberty County, Jas. C. Ralston, Agent. "One of the biggest things I consider that was put over for the boys of this State was the boys' and girls' 4-H State Short Course that was held at Georgia State Industrial College."

We took fourteen boys from this county. We feel that this trip to the State Short Course has done more toward the development of the boys' and girls' clubs than any one thing has done for some time. Every boy that went, and those that did not go, are striving to do something that will improve himself and at the same time, make him eligible to attend the State Short Course for next year."

There is a large amount of work to be done in the
the way of the country and the people. It is not
possible to do this work in a short time. It is
necessary to have a long time to do it.
